Project Life Cycle

- •The training reflects the four Project Life Cycle Phases and provides the tools for further innovation of shadow phases.
- •The four phases are subjected to management prerequisites, formatting, monitoring and reporting, and risk management.
- The proposed phases are:
- 1.The Initiation Phase: (Design) Starting off the project
- 2.The Planning Phase: (Planning) Organizing and Preparing
- 3.The Execution Phase: (Implementation) Carrying out the project
- 4.The Termination Phase: (Evaluation/Filing/Maintenance) Closing the project
